

KRUNAL SUBHASH KADU

SENIOR SOFTWARE ENGINEER | REACT NATIVE DEVELOPER

Pune, MH, India | (+91) 8308082945 | krunalkadu97@gmail.com
linkedin.com/in/krunat-kadu-996a3912b | medium.com/@krunalkadu97

TECHNICAL SKILLS

Core Frameworks

React Native, React.js, Context API

Languages

TypeScript, JavaScript (ES6+)

State Management

Redux, Redux Saga, Thunk

Backend / Database

Firebase (Real-time DB, Cloud Messaging),
REST APIs

Tools & Ecosystem

Git, GitHub, Jira, VS Code, Android Studio,
Xcode, Postman

Methodologies

Agile, Architecture Design, PoC

PROFESSIONAL EXPERIENCE

I-Programmer Solutions

Sr. Engineer / Team Lead
Sep 2023 – Present | Pune

Lise Infotech Pvt. Ltd.

Developer (Team Lead)
Oct 2021 – Sep 2023 | Indore

Infocentroid Software

Trainee Engineer
Jan 2021 – Sep 2021 | Indore

EDUCATION

Bachelor of Engineering

Sinhgad College of Engineering, Pune (2015
– 2019)

LANGUAGES

English, Hindi, Marathi

CAREER OBJECTIVE

Result-oriented Senior Developer with 5.5+ years of experience building and deploying high-scale cross-platform mobile apps. Expert in React Native architecture, performance fine-tuning, and leading agile teams to ship production-ready store applications.

KEY PROJECTS

Vodafone-Idea (VI) User Application

- Architected and delivered high-performance, scalable features for a telecom ecosystem serving millions of active cross-platform mobile users.
- Collaborated with product, UI/UX, and engineering squads to map features directly to strategic business roadmaps.
- Drove full SDLC lifecycles, leading design sprints, executing deep-dive code reviews, and automating continuous app store delivery pipelines.

Tech: React Native, Redux, Firebase, Git, Jira

Heart And Paw (Pet Services App) — Consultant

- Architected and implemented high-concurrency appointment booking engines and core localized pet services workflows.
- Engineered type-safe modular components using TypeScript, driving code stability and reducing potential runtime failures.
- Optimized layout responsiveness and eliminated memory leaks across core multi-view scheduling calendars.

Tech: React Native, Redux, TypeScript, Firebase, Redux Saga, WebViews

Wagefi (Early Wage Access App)

- Single-handedly developed mobile and web architectures from foundational initialization to production deployment on Apple & Google Play stores for the US market.
- Mapped client requirement vectors into solid, reusable state logic abstractions engineered via optimized React Custom Hooks.
- Integrated complex secure fintech infrastructure loops including Stripe, Argyle payroll, and Lithics card issuing gateways.

Tech: React Native, React.js, Redux, Stripe, Argyle, Custom Hooks, Git

PUBLICATIONS

"Multi-Language Implementation in React Native" — Published on Medium.

A technical architectural guide detailing internationalization, state-driven language localization, and dynamic app-wide layout adaptation.
